Xiqing District has a long history and profound cultural heritage. The New Folk Museum pays attention to the protection of traditional culture such as paper cutting, kites, brick carvings, stone carvings and folk Flower Fairs. At the same time, through the excavation, sorting, promotion and development of historical culture, many intangible historical and cultural heritage have been revived and developed. And build a window to show the world the culture of Xiqing. Xiqing cultural center is committed to the development of space and cohesion, to build a cultural center with cultural facilities gathering, function compounding and space stretching, which will become the new "heart" of the city. High quality building groups combine green and dynamic open space to provide citizens with as many elegant and people-friendly public activity places as possible. Thenortheast side of the plot is the proposed business hotel, and the traffic streamline connection between the project and the proposed project shall be fully considered.
