

# XIANGYANG CHECHENG LAKE

Client	SUNAC
Services	Urban design/Livable city
Location	Xiangyang
Scale	130 HA
Time	2018
Status	Planning completed

The industry system of Xiangyang dominated by the automobile industry is very simple. It is urgent to expand the scale of its tertiary industry to promote the integration between industry and city. Chechihu Lake area has good industrial base and local advantages. Through the people-oriented smart design of buildings, communities and cities, we strive to make Chechenghu Lake area an ecological and livable new city. With business as our focus, we improve supporting facilities of productive and living services, introduce entertainment facilities, R&D enterprises and business center, and strengthening urban vitality, to achieve the transformation from a traditional investment-driven city to a dynamic innovation-driven city.
